

Dear Middle School Parents,

We've had a good week so far this week. The Prodigy Thursday Middle School Math Hour was a great success with over 250 problems solved and three new placement levels reached in the hour. We will try it again next Thursday after Mr. Solomon's Zoom mtg. so look for more information. If your student was not able to join this week please remind them to look for the posting on Google Classroom for next time.

Tomorrow's lessons are now available in Google Classroom.

7/8th Grade:

There are IXL math assignments and science reading and quiz assignments for the 7th and 8th grade students . They also have to work on Quizlet vocabulary mastery for science and if they haven't completed their Element Research project get that done and shared with me, because we have a Zoom mtg. on Monday at 10am to discuss their results.

6th Grade:

The 6th grade students have IXL math assignments for tomorrow. They also have to work on Quizlet vocabulary mastery for science. Please remind them to join the class before they start any work or the results will not show up and it will result in a missing assignment.

Monday, I will assign an element project for the 6th grade students where they will be using Google Slides. If they want to think about it, they will be choosing from elements 1-36. I will need to approve their choice so there will not be any doubling up among the students.

If your student has not been successful with any lessons or projects or has any difficulty, please let me know if I can be of any help.

Please let me know if you have any questions, concerns, suggestions. The best way is through this e-mail at sanderson@stmaryschoolchx.com.

Stay Well and God Bless,

Steve Anderson
