

Dear Middle School Parents,

The 6-8th grade students have Khan academy math assignments and science reading lessons for April 15th which are now available on Google Classroom.

The Khan Academy assignments have a combination of video, articles to read, problems and quiz. The science assignments have a reading assignment with a short online quiz in Google Classroom covering the reading. They may use their book for these quizzes.

The 7th and 8th grade students have an Element Research Project writing assignment which is due Thursday 4/16, but I will not count it late if it is posted by Friday 😊

We will also have lessons on Thursday and Friday this week so keep an eye out for the postings.

As always please let me know if you have any questions.

Stay well and God Bless.

Mr. Anderson
