

Dear Middle School Parents,

All the 6-8th grade students have the Prodigy Middle School math hour for their math assignment tomorrow. If they can't make it at 10-11am tomorrow when the other students are competing, then please ask them to work on Prodigy math for at least 45 minutes by Monday.

Tomorrow, the 6-8th grade students have part #2 of the virtual science electricity experiment using the PhET simulations lab. The instructions are on Google Classroom. I will help any students with questions either on Google messaging, e-mail or during the Zoom virtual office hours Friday at 10:30 am. Please let me know if your student is having any difficulty with the virtual experiments or any other assignments 😊

As always please let me know if you have any questions.

Stay well and God Bless.

Mr. Anderson
