

Dear Middle School Parents,

All the 6-8th students have an IXL Math Assignment for Friday now available on Google Classroom.

They also have a virtual experiment in electricity due next Tuesday and Khan Academy assignment due next Wednesday that were assigned this week.

Students may attend the Zoom office hours meeting on Friday or Monday at 10:30 am for direction and assistance with their assignments. Of course they may continue to e-mail or message questions as always.

Please let me know if you or your student has any questions 😊

Stay well and God Bless.

Mr. Anderson
