

Dear Middle School Parents,

Please ask your student to be sure they are completely done with assignments before checking "Turned In" on Google Classroom. I have come across a number of incomplete assignments this week that were checked as "Turned In". I will use the Google Classroom "Return" function to mark incomplete assignments as missing. (Thanks Mr. Solomon!) Please let me know if you have questions. Thank you so much for working with your students to keep up!

If your student needs any help at all, I will be having teacher office hours on Zoom on Monday, Wednesday and Friday at 10:30-11:30. Any student that needs help with any question in math and science is welcome. The Zoom link is posted on Google Classroom. Please let me know if there is any questions, I am here to help 😊

We have started Electricity and Magnetism in 6-8th grade science classes 😊 The 7/8th grade has a two year curriculum rotation, so the 6th grade students will not see this topic again until 8th grade and the 7th grade students will not see it in 8th grade. We will be trying virtual experiments in electricity and magnetism later in the week.

All the 6-8th students have an IXL Math Assignment for Tuesday and a science reading and quiz assignment now available on Google Classroom.

As always please let me know if you have any questions.

Stay well and God Bless.

Mr. Anderson
